To add to the cheer of the soldier Christman orders have been issued that drills will be dispensed with on Christmas, and for a week there will be drills only in the morning. With their afternoons free, the soldiers are planning many sightseeing trips.

Snow fell early this morning on the high lands east of Coblenz within the bridgehead area occupied by the First melted quickly, but in the hills it lasted long enough for the soldiers to io some snowballing.

The first all-American dance east of the Rhine took place Saturday night, with Gen. Pershing and Gen. Hines looking on for a short time. The dance was given by the officers of the Third Cerds, whose headquarters is at Neuweid. About a hundred nurses from Coblenz and officers from divisions long the Rhine attended the affair, the music for which was furnished by an orchestra composed of soldiers.

The enemy had devised means of bases against torpedo boats and sub-marines, but the latest invention of terms been accepted the destruction of the idea was broached of having an airplane discharge torpecoes technical difficulties seemed insuperable. The torpedo weighs one ton. Eight Blericts flew across the Channel with the machine.

The effect of discharging the torpede, thus lightening the machine, was disastrous in the initial experiments. Once the wings collapsed and the pilot was hurled to death. On another occasion the discharged torpedo hit the water at an awkward angle and riccocheting from the surface rose plane discharged torpedoes which sank a Turkish transport carrying 3,000

### THE COST OF LIVING What is called the high cost of living is often only the high

cost of luxury. Take, for instance, the matter of food.

All that is necessary is that the food be wholesome and that it be properly cooked and served in a sanitary way.

All else is luxury.

CHILDS serves more than 50,000,000 such meals a year at an average cost to the public of only a little over 30 cents, and that too in spite of the present high cost of commodities.

Perhaps that is why CHILDS has been called a "national institution.

Santa Claus

From infancy to old age, there is something fascinating in the fantastic impersonation of Santa Claus.

This phantom individual did not originate in these United States, nor is his domicile within our democratic borders. He is a nomad, a wanderer on the face of the earth, a linguist fluently versed in all languages, and welcome equally in the humble and in the pretentious home.

His visits are annual, but are brief, and he has a prodigious memory he never forgets. Santa Claus is always for giving, never for getting. His principles and his policy are altruistic, his good humor proverbial. Despite his years, he never grows older, he keeps pace with the times and fashion, and his financial resources seem to be exhaustless. At this time of world-wide chaos, he has transferred his headquarters from London to America.

Santa does not approve of greed, especially in those who are already well provided for and who presently are to receive additional gifts, such as indemnities. The good nature of the International Pack Bearer must not be ruffled by importunate requests. Moreover, just as Santa Claus' little friends are promised his beneficence if they are good, so his older friends will be favored under like conditions.

Senta Claus for the remainder of the world, the "toys" shou'd be stamped MADE IN THE U. S. A. In other words, it is not too much for him to stipulate that the money shall be spent where it is obtained.
